PASSAGE (Q.41 – Q.43)

The conclusion of the World Trade Organization's 11th biennial ministerial conference at Buenos Aires was worrisome. From an Indian standpoint, there was no loss as status quo continues in the most important issue: the right to continue the food security programme by using support prices. But the inability of the negotiators to reach even one substantive outcome suggests that WTO's efficacy is under question. As a 164-country multilateral organisation dedicated to crafting rules of trade through consensus, WTO represents the optimal bet for developing countries such as India. Strengthening WTO is in India's best interest. Perhaps the biggest threat to WTO's efficacy today is the attitude of the US. The world's largest economy appears to have lost faith in the organisation and has begun to undermine one of its most successful segments, the dispute redressal mechanism. This is significant as the US has been directly involved in nearly half of all cases brought to WTO. Separately, large groups of countries decided to pursue negotiations on e-commerce, investment facilitation, and removal of trade

SFG 2021 | LEVEL 2 | ENTRANCE EXAMINATION | ForumIAS

obstacles for medium and small-scale industries. By itself, this should not weaken WTO. But it comes at a time when there is growing frustration with gridlock at WTO.

India did well to defend its position on its food security programme. The envisaged reform package which will see a greater use of direct cash transfers to beneficiaries will be in sync with what developed countries do. But it's important for India to enhance its efforts to reinvigorate WTO. In this context, India's plan to organise a meeting of some countries early next year is a step in the right direction. WTO represents the best available platform to accommodate the interests of a diverse set of nations. Therefore, India should be at the forefront of moves to fortify it.

Q.41) Why was the WTO's 11th biennial ministerial conference worrisome?

- a) Denial of status quo.
- b) Inability of negotiators to reach to the substantive outcome for the problems.
- c) Rift in the policies suggested by WTO on IPR.
- d) Non-cooperation from the Indian government on various matters.

Q.42) What is the biggest threat to WTO's efficacy today?

- a) India being not working in its best interest.
- b) Loss of faith in WTO by the US.
- c) Negotiators of WTO are not decision takers.
- d) WTO's lame attitude towards global trade.

Q.43) Which of the following is the most successful segments of the WTO mentioned in the passage?

- a) Dispute redressal mechanism
- b) Intellectual Property Rights
- c) Reviewer of government's trade policies.
- d) Agreement on trade in services
